

Good Shepherd Convent  
Chikkahesarur  
Lingasugur  
Raichur dt.

Greetings from Chikkahesarur Mission. We both sisters Josephine and Annie along with our Mission partner Mr. Santosh take care of the surroundings of our present building. Though the land is not belonging to us we take care of the small portion

where we do a

such as chillies,  
brinjals etc. We grow

and papayas, planted Jack fruit  
fruit plants. We have a small  
garden and a herbal garden  
everything by ourselves with  
our cook we do the digging,  
watering etc., Mr.

mission partner

two months ago.  
happy to see the

when we take the

fruit of our hobby of taking care of the  
nature.

bananas

and butter

flower

too. We do

the help of

planting

Santosh our

joined only

We are

result

We make manure out of our kitchen waste instead of  
throwing it. Sr. Josephine took an awareness session

for the teachers  
about ecology/eco  
friendly and  
created awareness  
to avoid plastic  
bags and plastic

bottles. Along with the sisters they segregate the  
plastic covers and bottles.

For our prayer and meditation we use the symbol  
of nature - the fresh air we breathe, the singing  
birds, different noises made by the domestic  
animals around us, the fragrance of the flowers  
etc., as we are surrounded by the wonderful  
creation of the creator God.
